Quotes from our patients
- The great people! Everyone is so amazing- thank you :)
- Getting to join my class virtually for circle time in the afternoon, using the pool, and using the Lokomat.
- All of the doctors stopped talking and listened to me.

Children admitted into Gillette’s pediatric acute rehab program demonstrated progress based on the WeeFIM assessment. Activities such as walking, taking care of themselves, communicating and thinking skills are rated. Patients are assessed at time of admission and again at discharge to determine WeeFIM gains.
