

## Hospital-based Clinic Facility Fee Disclosure

If you see a provider at a Gillette location in the Twin Cities, your visit will be billed as an “outpatient hospital facilities” appointment rather than an “outpatient clinic” appointment.

The following clinics are part of a hospital.

Gillette St. Paul Clinic

Gillette St. Paul – Phalen Clinic

Gillette Burnsville Clinic

Gillette Maple Grove Clinic

Gillette Specialty Center

Insurance providers treat outpatient hospital facilities differently from outpatient clinics. Depending on your health insurance, you may be charged a separate facility fee, which could result in a higher expense. You might have to make a larger copayment, pay a larger amount as a deductible or pay a larger percentage of the cost of care than you would at a clinic that isn't affiliated with a hospital.
